

The Firewalking Instructors Training (the FIT); *Summary*  
**Class for Group of 15 Participants**

The focus of the course is to teach you how to conduct empowering firewalking classes for your family, friends, or the public. However, in addition to firewalking, you will also master glass-walking, metal bar bending, using the mind for arrow snapping, board breaking, brick breaking, and many other remarkable skills. Plus, you will learn leading-edge exercises that facilitate attaining personal empowerment and experience the sweatlodge ceremony led by Owsa and Rolf.

Owsa and Rolf Beckman began their firewalking journey in 1983. They got certified Firewalking Instructors by Tolly Burkan and Peggy Dylan in 1992. Rolf was on Tolly Burkans staff from the same year. They became Fire Masters in 1995 and have been certifying Firewalking Instructors in Europe in association with Tolly every year since then.

Many people take this course solely for personal empowerment, with no intention of ever teaching firewalking. (Coaches, NLP-teachers, psychologists, professionals from the healing arts, salesmen, corporate trainers and consultants, eventmakers and motivational speakers, in particular, have found this course to be invaluable.) This information is worth many millions of dollars... just ask Tony Robbins or Harv Eker, both firewalkers with fantastic success stories. There are no prerequisites for this course; and **NO prior experience of firewalking is required.**

Additionally, the classroom portion covers every aspect of firewalking safety, wood types, liability, promotion, working with media and any other information specifically requested. Everyone receive personal attention. In the training there are five different firewalks so everybody will really learn the craftsmanship involved in firewalking. At the end of the course, you will be qualified as a Certified Firewalking Instructor. Imagine, in only four days, you can have a profitable new vocation that also serves humanity!

The firewalks include a 4 meters coal bed, a round coalbed, a solo firewalk, a 12 meter coalbed and a surprise firewalk.

The training begins at lunch of the first day and ends in the evening on the last. There are only 15 spaces available, and the course is sometimes sold out months in advance, so reserve your place now. The FIT typically has participants coming from many countries. It should be mentioned that it is possible to recover your entire tuition the first time you teach a firewalking class. And remember, you get a discount for early registration.

If you have any questions or want to register, just send an e-mail to: **info@firewalking.eu**

**To register by phone**, call + 46 44 340570. Information on private training at
